SUMMARY

Visionary professional and strategic leader with multiple years track record driving revenue growth through AI, IT, and corporate strategy. Experienced in project and product management, I dissect complex challenges and lead global teams that accelerate digital transformations, delivering scalable, efficient solutions with proven ROI.

Leveraging critical thinking while deploying various mental models, I create long-term, difficult-to-replicate competitive advantage. Driven by execution, I preempt risks, tackle roadblocks, and devise strategic solutions viewing business as relentless value creation for teams and stakeholders, delivering innovative products while achieving transformative business outcomes.

RELEVANT WORK EXPERIENCE

KBR [3 yrs 5 mos]

IT Business Process Analyst – Corporate Applications

- Product Manager for the KBR Charity Golf Tournament Product Line; ensured a successful 2025 Charity Golf Tournament by negotiating with stakeholders while leading development team to implement custom workbenches, roles and permissions, and ensuring effective marketplace enrollment by KBR vendors and partners.
- Negotiated with vendors including Microsoft, Adobe, Citrix, CWT, Smartsheet, etc. surrounding feature requests, regulatory changes, software terms, pricing, technical implementations, global rollouts, zero-days and more.
- Performed Software Review ensuring compliance with KBR Policies & Procedures prior to global deployment including via company portal, SCCM, virtual applications, servers, and secure environments.
- Streamlined all Corporate Application operations by consolidating Change Requests, Knowledge, Problems, Incidents, Requests, Tasks, Vulnerabilities, and Software Reviews into centralized Tactical Dashboard (ITIL/ServiceNow) for multiple teams; allowing for insight that can be processed in seconds (2+ hours prior to implementation).

Enterprise Generative AI Specialist – KBR AI Network

- Product Manager for the flagship KBR AI team, KBRaiN (KBR Artificial Intelligence Network).
- Led Product and Engineering team to deliver groundbreaking and impactful products for internal and external customers (Aramco, Deloitte) while ensuring (AI) regulatory compliance and data sovereignty for multiple markets (NA, APAC, EMEA, LATAM).
- Developed **100+** Policies, Procedures, and Frameworks pertaining to Product Management, Agile Methodologies, AI Risk Management Frameworks, Developmental Approach, and more.
- Developed custom AI Agents for **50+** Teams within KBR including Legal, Supply Chain, Marketing, Desktop, Enterprise Data Warehouse, IT, Government Solutions, Engineering, SAP, and more.
- With collaboration of internal leaders, developed 'Agentpoint' agentic product and business plan for Executive Leadership Team. Agentpoint is built with the end-goal of maximum penetration across all Business Applications, Data Sources, and IT Infrastructure, ensuring replication and adaptation to multiple Business Units. Agentpoint aims to reduce human resources, dissolve business applications, and increase cyber security across KBR IT. Estimated ROI **\$1.5M+** in <1 year.

IT Systems Administrator – User Enablement

- Streamlined Knowledge Management across KBR IT leveraging ServiceNow fostering interdepartmental collaboration while increasing SLA (Service Level Agreement) targets by **25%+**.
- During Hackathon, recruited internal workers and together crafted AI project proposals to executive leadership, RFP (Request for Proposals); accepted and developed, expected to bring in over **\$100M+** in increased revenue over the next 4 years.
- Managed global IT Systems for **30k+** multi-tenant commercial and government users administering Microsoft Azure User Management; Groups; Licenses, Applications; Security Access Controls, Active Directory, AT&T LDAC, Citrix Virtual Machines, Windows Servers, Adobe Admin, SAP, Costpoint, Workday, 3CLogic, ServiceNow, O365 Admin and more.

Knightsgate Ventures [2 yrs 4 mos]

Product Manager

- Led meetings with stakeholders to ensure that the website is effectively communicating to its target audience.
- Performed market research, strategized web architecture, designed mockup in Figma & developed site: knightsgateventures.com.

American Express [6 mos]

Software Engineering Intern – Risk Decision Technologies

- Designed REST API built with Java and Spring Boot. API tested using Postman. Created service layer tests using JUnit/Mockito.
- Designed UML class diagram to define classes, their attributes, functions, and relationships for building the API.

Software Engineering Intern – Global Merchant Services

- Restructured alert messages increasing Net Promoter Score and pushed code to **\$1B+** Global Merchant Services (GMS) platform.
- Developed a File Processor application that processed **500k+** records seamlessly utilizing Kafka with storage in NoSQL DB.

Web Surfing Studios [3 mos]

Product Manager Intern

- Developed admin-side of career fair website for Virginia Tech University. expo.sec.vt.edu.
- Developed entire architecture - database schema, wireframe, and prototype. autoclickit.com.

LEADERSHIP & ACHIEVEMENTS

Amazon Web Services (AWS) [9 mos]

AWS University Scout

- Supported startups on campus through a variety of programs and resources provided by AWS Activate.

Computer Science Association (CSA) [1 yr 9 mos]

Founder & President

- Developed website, SharePoint sites and organization. Created multiple programs and incentives; grew to **1000+** members.
- Developed member-based Point System and automated badge, rank, and point assignment; gamifying membership.
- 2021 Office of the Year Award.

Society of Hispanic Professional Engineers (SHPE) [1 yr 3 mos]

Webmaster

- Developed website and managed web-assets, marketing, and branding, creating a seamless experience for our members.
- 2020 SHPE National Institute for Leadership Advancement – **1st Place / 1000+** participants.
- 2019 National Nissan Design Competition - **3rd place out of 27** students selected from a pool of over **1000+** applicants. My design reduced the testing time of seats by **75%** and decreased overhead cost by **33%** through Process Automation.

National Aeronautics & Space Administration (NASA) – L'Space Academy [4 mos]

Deputy Project Manager

- Developed **100+** page project investigating '4 Vesta' asteroid while leading the Science, Engineering, and Logistics team.

National Society of Leadership & Success (NSLS) [1 yr 7 mos]

President

- Created a custom chapter management tool that eliminated over **80%** of human errors and doubled membership.
- Wrote a script that automated over **60%** of internal operations saving over **30 hours** per week in workload.
- 2018 President of the Year Award.
